

MEMBERSHIP CHAIR REPORT 2009

Membership Chair Report - 2009

Newfoundland and Labrador currently has a total of 513 registered member students. This is higher than 2008 enrollment, however, there are a number of membership applications that have not yet been received by the Membership Committee. The Board has now placed a new system in place to ensure all membership applications are received and registered more efficiently. This system will be placed on the Association's web site for your viewing. The good news is that 2008-2009 year is as anticipated a record-breaking one for our sport in registered membership.

Because of my passion and love for Tae Kwon Do I am pleased to serve on the Board of Directors and work with a sincere and dedicated group of individuals who share the same passion and desire to further develop Tae Kwon Do in this Province. We all should be very grateful for their continued commitment and dedication.

In closing I want to thank all the board and TKD members for the opportunity to serve and be a part of helping develop Taekwondo in this Province.
